

Precision. Performance. Perfection.

Company Profile

Baileigh Industrial has consistently proven to be the leader in providing quality metal fabricating equipment to industries in Canada, Mexico, the United States, and now Europe! Our product line has expanded to include tube benders, pipe benders, mandrel benders, pipe notchers, hydraulic corner notchers, cold saws, band saws, sheet metal shears, sheet metal brakes, ironworkers and much more. We have grown into one of the most well respected sources of metal fabricating and metal cutting machines in the Americas, Europe and the world.

As an organisation, Baileigh Industrial, prides itself with having friendly, knowledgeable sales engineers ready to assist you with your project needs. Our network of experienced dealers in the metal fabricating industry offer local sales and support. Our goal is to provide profitable solutions for your fabricating needs.

Mission Statement

To be the preferred supplier of quality fabrication equipment, systems and services by profitably responding to our customers needs with dependable deliveries, services and products that offer innovative technology and unsurpassed value.
